👤 PROFILE

Final-year B.E. Computer Science Engineering student with a Diploma in Computer Engineering, possessing a strong foundation in Full Stack Development, Cybersecurity, and SAP enterprise systems. Proficient in Python, Java, JavaScript, HTML/CSS, and MySQL, with hands-on project experience in phishing detection and speech recognition. Successfully completed SAP Backend and End-to-End Business Process (Software Track) certifications, gaining practical insight into enterprise resource planning and system workflows. Participated in national-level hackathons and academic design engineering projects. A quick learner with a passion for secure coding, system architecture, and enterprise-level technology solutions, seeking to contribute to innovative IT services.

💼 WORK EXPERIENCE

Phishing Detection System - Academic Project

Design Engineering

- 2024–Present – Present
- Developed a phishing detection model using rule-based and machine learning techniques.
 - Implemented character-level analysis to identify suspicious URLs.
 - Gained hands-on experience in threat detection and secure system design.

Self-Learning & Practice - Ongoing

Personal Learning Projects

- 2020 – Present
- Built small web applications using HTML, CSS, JavaScript, and MySQL.
 - Practiced full-stack development and basic cybersecurity techniques through online courses and personal experiments.

Speech Recognition System - Hackathon Project

Tech Hackathon Participant

- 10/2023 – 10/2023
- Collaborated with a team to build a basic speech-to-text recognition system using Python.
 - Used libraries like SpeechRecognition and PyAudio to capture and convert voice input.
 - Improved coding under pressure and learned teamwork in real-time problem-solving.

🌐 LANGUAGES

English
Gujarati
Hindi

QUALITIES

- Communication
- Teamwork
- Problem-solving

CERTIFICATES

SAP Certified Associate - Back-End Developer - ABAP

Cloud | June - 2025

- Verified knowledge in backend processes and data handling in SAP systems.

Speech Recognition System - Hackathon Project

Tech Hackathon Participant | Oct 2023

- Participated in a national-level coding hackathon focused on building a speech-to-text system using Python and NLP.
